DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claims 13 and 29 recite an antenna apparatus comprising a fixed side transmission line that is axially symmetrical in a propagating direction, a rotation side transmission line arranged coaxially with the fixed side transmission line so as to be rotatable about an axis of the fixed side transmission line, a transmission line side choke disposed between the fixed side transmission line and the rotation side transmission line and arranged to cause short circuit between the fixed side transmission line and rotation side transmission line, and a primary radiator disposed in the rotation side transmission line so as to be rotatable together with the rotation side transmission line.

None of the prior arts shows or suggests this antenna apparatus.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
